

CITY DADS IN REGULAR MEET MONDAY NIGHT

Salary Of City Judge Clay Boosted In Order To Keep Clerk Employed

The City Council of Daly City met in regular session, Monday evening of this week, with all members present.

The council was asked to make provision for an additional clerk in the office of Judge Wade H. Clay at a cost to the city of \$50. It was explained that the services of a clerk were imperatively necessary to conduct the business of the office in Daly City in an efficient manner.

A clerk has been employed for the court here ever since Judge Clay's accession to the office of justice of the peace for the First Township. Recently the County Board of Supervisors reduced the expenses of the office and thus dispensed with the salary of the clerk here.

The council members, after discussion, came to the conclusion there was no authority vested in that body to pay the salary of a clerk for Judge Clay's office. However, they recognized the importance and necessity of such a position, and decided a raise in the salary of the city judge might solve the problem.

On motion, unanimously concurred in, the salary of City Judge Clay was increased from \$60 to \$110 per month, with the understanding that the latter should pay the salary of a clerk in the employ of his Daly City office.

Health Officer Dr. Shagoian reported she had on hand for distribution to food stores a supply of cards reading "No Dogs Allowed."

An application was read and filed from A. B. Gould asking appointment as personnel clerk.

A communication from the State Board of Equalization requested suggestions as to location of a room to be used for the purpose of holding hearings on new applications for liquor licenses. The council instructed the city clerk to reply and offer use of the council chamber.

The California League of Municipalities gave notice of a dinner meeting at Oliver's Restaurant in South San Francisco, Thursday evening of this week, and asked city officials to be present. The following from Daly City accepted the invitation: Mayor Paul G. Selmi; Councilmen J. J. Fahey, Julius Twisten and Henry Sundermann; Fire Chief A. P. Chesney; Chief of Police James Reardon.

MOTHER AND SON RIVER VICTIMS AS VACATIONING

Former Loses Life In Vain Attempt To Rescue Drowning Youth

Local Scouts attended the funeral of their late comrade, Rolston Arthur Corwin, 11, son of Mrs. Luella Donald of Brunswick street, Thursday of last week at 2 o'clock.

The youth was vacationing with his mother in Garberville and drowned in the Eel River on Monday of last week.

Hearing his screams, the mother jumped in to save him, but gave her life in a vain attempt.

At a coroners inquest in that city it was announced that Mrs. Donald died of shock and not by drowning. This was given as the reason her body floated to the surface and was recovered several hours before that of the son, who had dropped into a hole 20 feet deep.

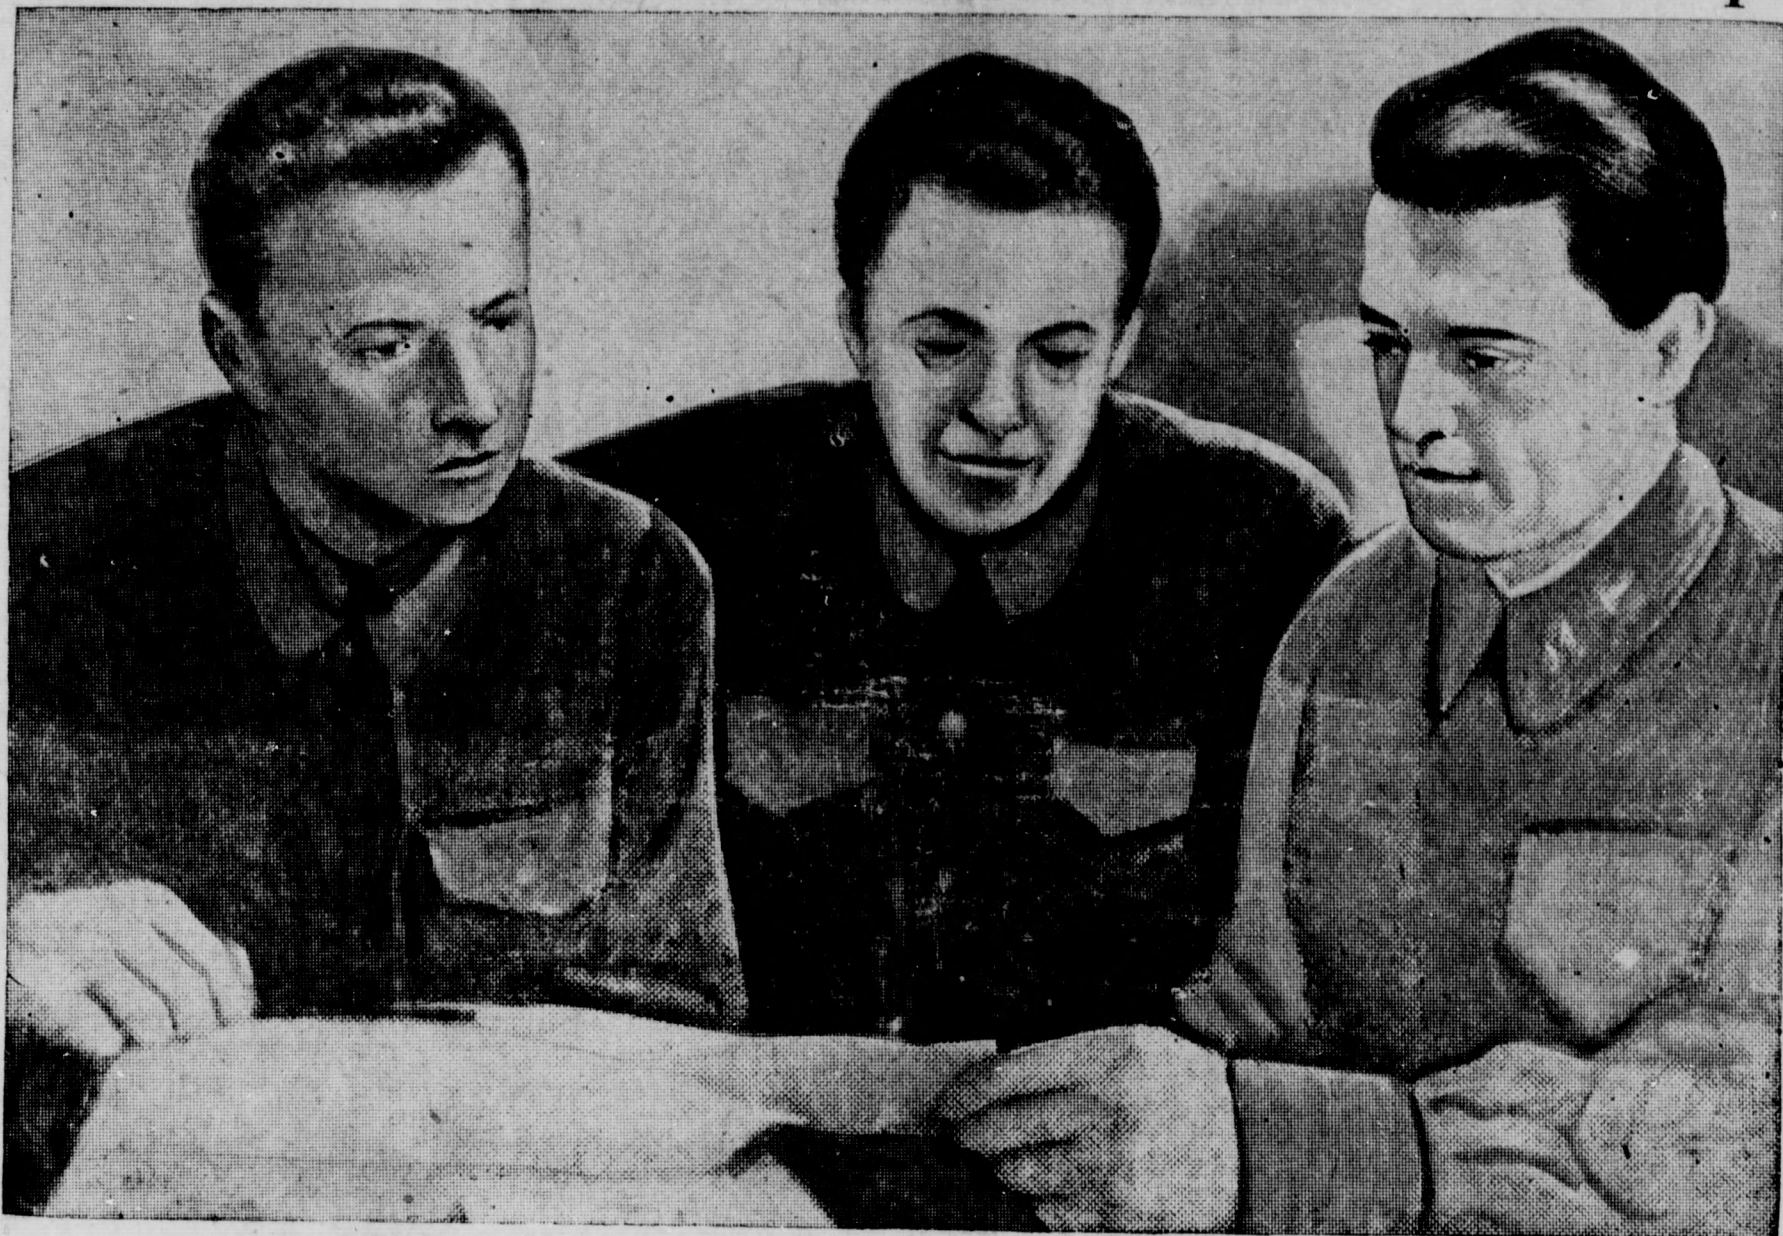

Percy C. Donald, the bereaved husband, brought the bodies from Garberville, on their release by authorities, in his car, to a San Francisco mortuary establishment and made the trip unaccompanied by friend or relative.

The pall bearers at the funeral were Sea Scouts Albert MacCarthy and James Lederman, Scouts of Troop 149, Donald McHugh and Robert Riordan, Cubs Steve Cosgrave and Eugene Laurie. Tom Beeson played taps.

The mother and son were interred together in Mt. Olivet Cemetery.

Mrs. Donald, 31, was a past president of Castro Parlors No. 178, Native Daughters of the Golden West.

REVOLUTIONARY BAND CONCERT NOTED RUNNERS WAR ROMANCE AT HIGH SCHOOL TO SHOW SPEED DERBY IS TO BE NOW AT ALCAZAR SATURDAY EVE AT TANFORAN HELD OCTOBER 10

Old Custom Of Days Of Puritans Re-enacted In New Comedy

"The Pursuit of Happiness," the Langners' romantic comedy of the Revolutionary War days which is now playing at the Alcazar Theater, is based in most instances on facts of history.

That the art of "bundling" as practiced by the Puritans was not as strict in the Connecticut Valley region as in Pennsylvania and Cape Cod regions is a historical fact. Also that there were few violations of the Puritan moral code due to the use of this custom of love making is also noted. The center board, however, in the "bundling bed" in many cases was fastened down by parents before the youthful lovers started their "sparking" to prevent too close contact. This latter process, however, was not employed in the Kirkland farm, according to the play, when Prudence, the native daughter and a young Hessian have their "bundling" scene.

"The Pursuit of Happiness" includes in its excellent cast, Leon Forbes, Grace Cooper, Ruth Saville, Edna Ellsmere, John Delmore, Ben Legere, Don Gray, and J. Raymond Northcutt.

DEAD HEAT IS RECORDED AT BADEN TRACK

First Tie For Winner In History Of California Greyhound Racing

The first dead heat for first place in the history of California dog racing was recorded at Baden Kennel Club, Saturday night of last week when Irish Blarney and Trudy hit the finish line at exactly the same moment.

In more than 15,000 greyhound races which have been run in this state, no dead heat was ever announced prior to the installation of the Baden Wonder Photo-Finish Camera at the South San Francisco track this season.

The dead heat for first place occurred in the eighth event before the large Saturday night crowd, and the picture of the finish, posted on public display in the Baden grandstand, proved it beyond question.

Unquestionably the most important development in dog racing in the past decade, the Baden Wonder Camera is attracting nation-wide attention among enthusiasts for the "Sport of Queens."

The device, operating under artificial light and under difficulties which make photo finishes for horse racing comparatively easy, produces pictures which equal, if they do not excel, the photographic results obtained on the bangtalls.

Street Committee Chairman Fahey was instructed to secure the necessary equipment and materials to complete the work on Frankfort street.

The city clerk was instructed to request a bill in the exact amount demanded each month, so there may be opportunity to check the same before payment is made.

The Simonds Machinery Company reported data on the installation of the latest water pump and requested payments due be made. On motion it was decided to pay the full amount still owing to net a discount to the city of 10 per cent.

Francis Denning of Wellington avenue filed an application for a clerical position which may arise in any municipal department. Filed.

Chief of Police Reardon called attention to the poor condition of some of the police cars now in use. He recommended purchase of a new Buick automobile and that one old car be turned in on the purchase price. Ordered by unanimous vote.

Applications were received for membership in the Fire Department from William Thomas Webb of San Diego avenue and Louis Neal Borzano of Miriam street. Both were ordered filed to take the regular course.

Fire Cracker King Draws Steep Fine

When court convened last Friday afternoon there was a crowded court room to listen to the proceedings.

O. J. Guisti was on trial charged with violating the ordinance prohibiting the sale and discharge of fireworks and firecrackers. He was represented by Attorneys Mabel R. Schwab and Walter E. Trefts. D. P. Convery, city attorney, appeared on behalf of the people.

After a trial of nearly an hour wherein evidence was brought forth to the effect that Guisti had a whole truck load of fireworks and firecrackers parked on the highway and was engaged in setting some of them off when arrested by Officers Sunderland and Dalton, the court found guilty and fined him \$100, with the alternative of spending one day in jail for every \$2 of said fine. Guisti first gave notice of appeal, but later reconsidered and paid his fine.

G. Vanni fared somewhat better, as it was shown that he was only an employee of the place where firecrackers were being sold, and on recommendation of the city attorney the judge gave him a minimum fine of \$25 and afterwards suspended \$10 of that sum.

C. W. Lea, charged with violating Section 470 of the Penal Code (forgery), was represented by Judge Percy Jackson, entered a plea of guilty and was held to answer to the Superior Court for further proceedings.

David T. Knowlden, charged with a statutory offense and carrying concealed weapons, was ordered to appear July 14 to plead. And so it went all the afternoon, what with traffic tags, civil suits and criminal charges, the court is kept busy all the time.

Said That As Much Can Be Seen In Three Hours As In Sixty Day Tour

Sutter and Alameda Counties are among the first to install booths at the State Fair grounds in Sacramento for the eighty-third annual exposition, September 3 to 12.

The State Department of Agriculture and Alta California, Inc., are two agencies having exhibits virtually completed. Mark G. Johnson, in charge of the Sutter County exhibit for the last several years, is completely renovating the county's booth which captured the grand sweepstakes in 1936.

Fifty southern California advertising executives were told at a meeting in Los Angeles that as much can be seen in three hours at the fair as during 60 days of traveling about the state. The statement was made by Fred H. Bixby of Long Beach, California and Arizona livestock leader.

Secretary-Manager Robert Muckler was the principal speaker this week at the first of a series of scheduled talks on the fair. The speech was broadcast over California air lanes and originated in KFBK studios at Sacramento.

Racing entries disclose that more than \$40,000 in purses is attracting a record number of runners, trotters and pacers.

HORSE MARINES HAVE SURVIVED MARCH OF TIME

Motor Transportation Does Not Affect Mode Of Travel For Sea Soldiers

From Peiping China, comes word that mounted marines still take to the saddle in the performance of their duties, despite the advent of the motor age or ancient quips concerning "horse marines." Every day a troop of alert young sea soldiers, equipped in the approved fashion of cavalymen, patrol the outlying districts of the city and later report to their headquarters at the American Embassy there.

For twenty-five years this patrol has been on duty at Peiping, and it is considered one of the smartest military units in China. The patrol, first organized during a revolution in 1912, has proved its worth on a score of occasions since that time.

Peiping's "mounties" are by no means unique in the annals of the marine corps. Mounted marines have served in Cuba, Haiti, Santo Domingo and Mexico. During their comparatively recent occupation of Nicaragua, many of the marines took to the saddle, enabling them to cover long distances while in pursuit of bandit groups or to travel over roads

GRACE COOPER AT ALCAZAR

In "The Pursuit of Happiness" at the Alcazar Theater in San Francisco, plays the part of a young Connecticut woman during the Revolutionary period. During this period kindling was expensive and the custom of the day was to "bundle." Little is said of "bundling" in the school histories. The clergy of that day and for

many years—up to 1804—conducted a campaign against the practice. "Bundling" consisted of tumbling into bedclothes to keep warm when the current swain called of an evening. The feather beds and thick comforts of that day were resorted to as a measure of economy to save the cost of kindling wood.

cisco Handicap, all ages, one mile and a sixteenth, \$10,000 added.

There will be two stakes each week and in the Thanksgiving period a handicap will be run every other day. The Yerba Buena is a renewal, as are also the A. B. Spreckels, named in honor of the pioneer horseman; Golden Gate Handicap, which is a reminder of the Golden Gate International Exposition to be held at Yerba Buena Shoals in 1939; the Half Moon and the San Francisco.

The Lassie is decided each fall at Tanforan and attracts all the best California bred fillies.

New stakes are the Portola, named for the discoverer of San Francisco Bay; the Drake, a name historically significant on account of the voyage of Sir Francis Drake in this region, and the Sequoia, which at once brings to mind the big trees of various sections of the state.

Indications are the nominations to the stakes will be larger than ever before with an abundance of "class."

The fall meeting opens Tuesday, November 16, and continues for 25 days, winding up on Saturday prior to the opening of the annual meeting at Santa Anita.

Overnight purses will be liberal in accordance with the established custom of the Tanforan management.

Notification has been made to owners of the entire country that the nominations for the Tanforan Futurity of 1939 close on July 16, 1937.

CLEAR THINKERS SEE BETTER TIMES AHEAD

By J. W. MARCHBANK
Pioneer in Frontier Mining Work

Two schools of economists are hard at it. By being "hard at it" I mean they are diametrically opposed as to the future. One group sees "1929" with all its misery returning about 1940, while the second interprets present world movements in an optimistic way, not seeing the slightest indication of another depression.

A firm of stock brokers in London recently issued a circular answering the "delusion" that we are to have 1929 all over again. The dealers in stocks claim the gloomy predictions so often heard are untimely and are the product of the disordered imaginations of theorists.

The conclusion of the London survey is worth quoting. It is as follows:

"Given a general lowering of trade barriers, better international politics, a revival of international lending, and a definite statement that the chief powers will make no change in the price of gold for several years, we may be on the eve, not of a slump, but of the greatest and most continuous expansion of trade and well-distributed prosperity that the world has yet seen."

President Roosevelt not so long ago told the press conference that progress has been made in stabilizing the national debt. We all know that the total of interest-paying obligations of the United States treasury is about \$36,400,000,000. It is likely that in such periods of relative prosperity as the present the most strenuous of efforts will be made to reduce the national debt. The President emphasized in his talk to the newspapermen that since the end of the last calendar year the stabilization of the federal indebtedness had been brought about, with the exception of increases caused by a bonus payment, two social security reserve funds and the inactive gold fund.

Quite a number of benefits coming from the modern attitude of thinking about the other fellow once

Redding Regatta Week End Event

Large numbers of motorists interested in aquatic sports will travel to Redding over the week end for the annual Lake Redding Regatta, to be held Saturday and Sunday (July 17-18). Many inquiries from motorists planning to attend the regatta have been reported.

Speedboat skippers will provide spectacular competition for an array of awards at the regatta. Elaborate plans for the two-day water carnival are being completed by the sponsors of the event, the Redding Junior Chamber of Commerce.

A parade and aquatic features in the new municipal river front swimming pool will be held on the opening day, with fireworks and the usual regatta dance in the evening. Boat races will take place Sunday, featuring some of the fastest power craft on the Pacific Coast.

in a while as well as of yourself cannot be computed in dollars and cents. The change can be put under the heading "culture," or as the chief executive of the nation has sometimes put it "spiritual values."

The Agricultural Extension Service, sponsored jointly by the United States Department of Agriculture and agricultural colleges, gets the credit for providing aid for development among farm people.

A recent survey of rural arts programs has shown a cultural renaissance is well under way. Miss Marjorie Patten, who conducted the survey for the General Education Board, reported that farmers in many regions were becoming increasingly interested in opera as well as corn and hogs, in drama as well as cheese and cream and in folk dancing as well as in wheat and cattle.

It was found that hundreds of one-act plays are being produced in isolated communities in such states as Wisconsin in spite of twenty-two-foot drifts and a temperature of 40 degrees below zero. It is justly held the program is full of romance, adventure and challenge; something new, but of the same spirit as that which characterized the pioneer days.

Operatic Program Given At Alcazar

On Monday, July 19, at the Alcazar Theater, the Federal Chorus and Orchestra with soloists under the direction of Giulio Silva, present an all-operatic program. Overtures, arias, and choruses from the most popular of the operas should prove of real interest to music lovers.

Excerpts from the operas La Traviata, Rigoletto, II Trovatore and Carmen will be featured. Carlos Jarquin, baritone, is scheduled to sing "Di Provenza" aria from La Traviata, and from Rigoletto will come the famous quartet, "La donna e mobile" will be sung by the popular tenor, Cecil Lausten.

From II Trovatore the "Miserere" will be sung by Florence Ringo and Cecil Lausten; Blanche Hamilton Fox, contralto, will sing the "Anvil Song" assisted by the Chorus.

After the intermission, Carmen is given, from the Cigarette Girls Chorus through the second act including the Toreador Song, the third act with the famous Micaela aria, on to the big finale of march and chorus. Nona Campbell will sing the music allotted to Carmen, Lucy Day has the Micaela role and Frank Baken is the Toreador.

This concert has been in preparation for sometime and will be one of the high lights of the Federal Music Project summer season at the Alcazar. We wish to differentiate these concerts from the Symphony Series at the Veterans' Auditorium on alternating Tuesdays. This concert is a continuation of Alcazar Series and will continue every other week.

BASEBALL BOYS SALLY FORTH— ARE VICTORIOUS

Journey To Sonoma Last Sunday And Return With Scalp Of Home Town Club

The Daly City Tanforan baseball team made a trip to Sonoma, last Sunday, to engage the home town boys in battle.

When the smoke had cleared away the final score board showed Daly City Tanforan 8 and Sonoma 2.

The batting and fielding of Miller and Gilbert of Daly City were outstanding features of the game. Miller garnered a homer and a single, while Gilbert nicked the opposing pitcher for three singles and a triple.

O'Neill, pitching for the Tanforans, struck out an even dozen of the opposing batters and, although he walked seven men, he was particularly effective in the pinches.

Clerici and Barrachi of Sonoma pulled their pitchers out of a number of holes by making several spectacular catches in the field.

BOY SCOUTS IN GREAT JAMBOREE AT WASHINGTON

Two British Columbia Members Pedal Four Thousand Miles To Attend

The editor and Mrs. Pitschke were visiting in Washington, D. C., while the early preparations were in progress for the spectacular Boy Scout Jamboree, recently, in full swing in our national capital. Hundreds of tents had already been erected for the gala event. From the height of the Washington monument the display of canvas abodes along the Potomac presented a gigantic picture.

Two bicycle scouts, Phillip La Fortune and Arthur Freeman of Victoria, British Columbia, pedaled their entire way to this tent city. They covered a distance of 3581 miles between the dates of April 23 and June 28.

The great camp, it is said, resembled an exposition with a diversity of attractions featuring, for example:

1—A Manhattan skyline, depicting the Empire State Building, erected by New York City Scouts.

2—A huge ax and other oversized camp equipment, displayed by Wisconsin Scouts as former possessions of the giant legendary lumberjack, Paul Bunyan.

3—A model of Virginia's famous Natural Bridge. Other Virginia Scouts decorated the tents they are to take to the world jamboree in Holland next month, with oil paintings depicting famous scenes in their state's history.

4—Palm groves with live alligators, laid out by Florida boys.

5—A Georgia cotton plantation.

6—A reproduction of Kentucky's Mammoth Cave.

7—A 12 foot tall reproduction of President Roosevelt's Hyde Park home, made by Scouts from Duches County, New York.

8—Indian villages with brightly colored teepees, and frontier towns of various types.

9—A 91 piece band from the New England States.

10—In one act, 82 scouts lit campfires by the flint and steel method in a period of two and a half minutes.

11—Formation of "a human flag," 140 feet long, composed entirely of scouts using their red-blue jamboree neckerchiefs and strips of white cloth. The flag forming was done in a period of two and one-half

Lesson Sermon Of Christian Science

"Life" will be the subject of the Lesson-Sermon Sunday, July 18, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be: "Now that the dead are raised, even Moses shewed at the bush, when he calleth the Lord the God of Abraham, and the God of Isaac, and the God of Jacob. For he is not a God of the dead, but of the living: for all live unto him" (Luke 20: 37, 38). Other Bible citations will include: "Now therefore hearken, O Israel, unto the statutes and unto the judgments, which I teach you, for to do them, that ye may live, and go in and possess the land which the Lord God of your fathers giveth you" (Deut. 4: 1).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Man, governed by immortal Mind, is always beautiful and grand. Each succeeding year unfolds wisdom, beauty, and holiness" (p. 246).

Driving On Curves

It is said the technique which all too many drivers use in rounding curves is just the reverse of that employed by those who have made a thorough study of the physical forces involved in that situation.

Whereas it is the practice to enter the curve rapidly and leave it slowly, the safer method is to reverse the procedure. Speeding up when leaving the bend tends to give the car a chance to straighten out automatically.

CAUSE MISFIRING

Various conditions are said to cause the motor to misfire under load or at idling speed.

The most common causes are improperly adjusted timing, poor compression, fouled or cracked spark plugs, ignition leaks due to poor connections, leaking manifold gasket, sediment or water in fuel line, leaking cylinder head gasket, weak or shorted coil, foreign particles in distributor.

WESTERN ACE NICKS RECORD

Clipping two-tenths of a second from the world record for the half-mile, Elroy Robinson, lanky Olympic Club star from San Francisco, recently stole the show from a blinding array of national track and field champions at the second World Labor Athletic Carnival at Randall's Island, N. Y. The former mark was set by Ben Eastman, former Stanford University flash, in the Princeton invitation meet June 16, 1934.

WHERE HEAT IS REALLY HEAT

"Is It True What They Say About" Washington

A recent newspaper report from our nation's capital reads in part as follows:

"A wholesale exodus from Washington was under way as thousands fled to mountain and seaside resorts to escape a weekend of blistering weather."

Temperatures over last weekend: Midnight, 82 degrees; 1 a. m., 80; 2 a. m., 79; 3 a. m., 78; 4 a. m., 78; 5 a. m., 78; 6 a. m., 78; 7 a. m., 80; 8 a. m., 83; 9 a. m., 85; 10 a. m., 89; 11 a. m., 91; noon, 92; 1 p. m., 93.5.

There are always ways of keeping cool, and when one becomes an acclimated resident the hot weather is only one phase of a delightful and colorful experience in our country's greatest city. Here are a few suggestions quoted that will help out in some localities of California as well as farther east:

From Dr. Robert Olesen of the United States Public Health Service and Dr. Robert A. Fraser, chief medical director of the New York Life Insurance Company, come some tips for wooing comfort while the sun shines on.

Hide those dark colored clothes and fare forth in something light in weight, light in color. And when you step out into the sun, be sure your bonnet's on.

If you must eat, stick to fruits and vegetables. But wash them down with something non-alcoholic.

Moderate exercise, Dr. Olesen advocates, but don't creak those muscles after the sun gets high. Take an after-lunch siesta if possible, and be sure to get enough sleep.

Dr. Fraser urges persons in the heat belt to take frequent tepid (not cold) baths. He has six words to the wise:

"On hot days take it easy."

If you can't sleep at home, sleep in the park. Take long quaffs of cool, but not icy, water to replace the pints of moisture lost in perspiration. Put your wrists under cool water for that old delicious feeling.

THE REAL THING

Barber: "Shall I give you a shampoo?"

Nuriche: "It's the best or nothing with me! Give me a genuine pool!"

CASTLE REPLICA IS TO BE SHOWN WEEK OF JULY 26

Famous Doll House To Be Exhibited For Crippled Children

The world tour of the famous Colleen Moore doll house, costing \$435,000 and exhibited for the benefit of crippled children, will be shown in San Francisco, beginning July 26.

Mayor Rossi, who extended an official invitation to the motion picture star to exhibit the fairy castle in the city, this week received the following telegram of acceptance:

"Thank you ever so much for your cordial and official invitation to visit San Francisco with my doll house. I am delighted to accept and am now making plans to exhibit the fairy castle in your city beginning July 26. We hope for an attendance of more than 100,000 persons and I am happy that I will be able to be present."

The doll house, which is nine feet square and twelve feet high, has been exhibited in major cities throughout the United States. Net proceeds will go to establish agencies aiding crippled children. Within its towers and battlements are a series of rooms containing 2000 handcrafted furnishings. The castle, which took nine years to complete, is rich in gems and precious metals and is the product of 700 workmen, artists and craftsmen.

It was constructed by Miss Moore in gratitude for recovery from a serious early-life illness.

Oil Use By Autos Exceeds Industries

Automobiles now use more lubricating oil than all the industrial machinery in the United States.

A recent survey by the American Petroleum Institute found that motor cars and trucks used 22,000,000 barrels of lubricating oil last year, while industry consumed slightly more than 20,000,000 barrels.

DISGUISE STRAIN IS OF "EVERGREEN" KIND

By J. W. MARCHBANK

With the yearling sales soon to begin at Saratoga interest is at its height in the blood lines of the youngsters to be offered at the Spa. It goes without saying there will be plenty of Domino blood in the pedigrees of the stock from the big nurseries. Some of it, too, is from Domino's son Disguise, a stallion well known in his life time in California and lately through the breeding achievements of his son, King Heather.

Although it seems only a short period has elapsed since Disguise was sending out winners, his name appears as a distant cross in the charts of others. The anomalous condition comes from the fact Disguise was foaled as long ago as 1897 and was retired to the breeding paddock quite early.

All fans know that John P. Grier, Man o'War's old rival, has been a successful sire. At least part of the success is due to the Disguise strain. As will be recalled, the horse is by Whisk Broom II, from Disguise's daughter Wonder. It is of some interest to note that Jack High and Boojum, sons of John P. Grier, are siring stakes winners.

Flying Heels, a son of the Kentucky Derby winner Flying Ebony, is now ten years old and is beginning to send out progeny that possess the speed that made him so famous. One of his daughters, Spindletop, traces through female ancestors to Disguise.

The career of Flying Heels will be watched closely out this way on account of his sire standing at the Alisal ranch down at Santa Barbara. Henry McDaniel, who trained Flying Heels, recently said the stallion was the fastest horse ever bred by the late Gifford A. Cochran.

My imported War Cry had two stakes winners out last year and both were from King Heather mares. In fact, I have such a high opinion of the son of Disguise as a broodmare progenitor I am mating many of his daughters, season after season, to the established sire, Sweepster.

Flier's Kin Waits In San Francisco

Mrs. Tamara Mamay, sister of Andrei Yumachev, co-pilot of the huge Soviet plane which flashed through the sky from Moscow to southern California, is pictured at her home in San Francisco. Mrs. Mamay left Russia fifteen years ago with her husband to make her home in the "land of promise." When she was leaving her native land her brother told her he would fly to see her some day. Today the promise is coming true.

DALY CITY CLUB WINS LONG GAME

Wildcats Stop Streak Of Glen Park A. C. At Six Games As They Defeat Them In Ten Inning Contest, 14-13

Daly City Wildcats scored their second straight victory as they defeated Glen Park A. C. 14-13, Sunday of this week. The score in the last of the ninth was 11-6 against Daly City, but they fought until the last man was out to score five runs and tie the score. Then the Glen Park team scored two more in their half of the tenth to take the lead again. Daly City, still fighting to win, got the bags loaded and then the leading hitter of the day, Roy Giusti, came through with a smashing single to win the ball game.

High lights of the game were when Giusti hit a two bagger with the bases jammed in the last half of the ninth inning to tie the score, and in the last half of the tenth he came up again with the bags loaded and hit a single to sew up the ball game. Leading hitter for Glen Park was Schlueter, he getting 5 for 6.

this week Monday, at the home of Mrs. W. E. Pitschke 416 Irvington street.

A tempting luncheon was served, after which the business meeting was conducted by Miss N. S. F. Rickmann, chairman. The subject under discussion was "Cake." Miss Rickmann read portions from an old recipe book of 55 years ago, handed down from grandmother to granddaughter.

The hostesses for the August meeting are to be Mesdames G. R. Augustien, E. Bolger, H. Elmers and June Fletcher. Mrs. H. Elmers will conduct the business meeting.

The members of cookie committee, Mrs. Amelia Lewis and Mrs. John Kinsey, are doing special work this week preparing copy for the printer. In the Experienced Housewife Cook Book there will be cookie formulas for every occasion.

Vacation period had thinned the housewife ranks temporarily, but work on the cook book continues, building a memorial to the kitcheners of our community.

HORSE MARINES HAVE SURVIVED MARCH OF TIME

(Continued from Page 3)

impassable to motorized units. Even in the United States mounts have been used by marine sentries to cover wide stretches of territory at various posts and stations, notably at Hawthorne, Nev., where a naval ammunition depot covers more than 200 square miles.

On many historic occasions American Marines have traveled long dis-

tances in the saddle, including a noteworthy visit to King Menelik, of Ethiopia, in 1903.

None of these mounted groups has survived as long as the patrol at Peiping, the marines usually purchasing mounts and disposing of them when they are no longer needed. An exception to this rule was Old Tom, a war horse that saw service in Cuba during the Spanish-American War. Although his days of usefulness had long since passed, he was retained for sentimental reasons until he died of old age at Portsmouth, N. H., in 1933.

New mystery shrouded the unsolved death of John Ronconi, 60, Colma rancher, whose body with the skull crushed was washed up at Salada Beach last Friday.

Sheriff James J. McGrath said Mrs. Marie Ronconi, the widow, found a black note book in the dead man's room in which had been written the words:

"I leave you everything, Marie."

Sheriff McGrath discounted any theory of suicide.

Colma May Have No Fire Protection

The biggest little town in the West, with a half million dollar perishable property value, will be without fire protection if its fire district is dissolved by electors of the district on August 3.

According to the fire commissioners of the Colma district, the people are beginning to realize the importance of fire prevention and fire protection, and that all cities and towns on the peninsula have their fire departments under state law controlled by their districts or their municipal government.

The fire commissioners have arranged a public mass meeting at Colombo Hall, Tuesday evening, July 27, so that the people of Colma may hear and understand the merits of the fire district issue and not be guided by public propaganda.

CLEAN OIL FILTER

Experts say oil filters should be serviced after every 10,000 miles of driving.

Dirt, sludge and other foreign matter accumulates and if the cartridge is not changed these destructive materials reach the engine's moving parts, causing them to wear rapidly.

scarfs. The plan, in keeping with the Spanish theme of the Fiesta, will brighten the county much the same as San Francisco was brightened by the wearing of such garb during the gate bridge opening festival.

One of the highlights of the Fiesta this year will be the domestic science exhibit, being arranged by Max Leonard, county agricultural commissioner, assisted by Mrs. F. M. Perkins, Redwood City, second vice president of the Fiesta commission.

Elmer A. Roberts, first vice president of the commission and chairman of all advance ticket sales, reported that many reservations for tickets have already been received, declaring that he believed the throngs this year would eclipse all previous years. Some 60,000 are expected to see the coming Fiesta.

From all parts of the nation and from magazines, trade journals, motor companies, seed concerns and other groups have come queries regarding the 1937 Floral Fiesta, it has been announced, indicating that the show had attracted nation-wide attention.

Stewart Edward White, the noted novelist, will directly aid the Fiesta and his novel, "The Rancher," will be used in the production of the annual pageant, it was stated.

Collaborating with Fanchon and Marco, who will produce the pageant, Mr. White will see to it that the pageant holds true in every detail to authentic Spanish custom, music, songs and dress.
